Bypass Protein Meal	21%
Total Protein Equivalents	36.3%
Molasses	6.3%
Salt (NaCl)	46%
Calcium (Ca)	2.31%
Phosphorus (P)	1.58%
Sulphur (S)	2.73%
Magnesium (Mg)	0.04%

**FOR ANIMAL TREATMENT ONLY.  
THIS PRODUCT DOES NOT CONTAIN  
RESTRICTED ANIMAL MATERIAL.**

Olsson's Stubble Muncher is designed for dry season grazing to provide stock with maximum protein conversion when utilising stubble and dry pasture. With a balance of urea, bypass protein, calcium and phosphorus, this block enables stock to utilise all available dry matter and convert this into usable protein. The combination of essential elements will stimulate the rumen to produce bacteria that will promote animal growth. Maximise all available feed sources with the assistance of Stubble Muncher and maximise your bottom line.

## DIRECTIONS FOR USE

### Feeding Instructions:

**Sheep:** 5-10g per head per day

**Cattle:** 50-100g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.

Locate blocks away from watering points to encourage stock to graze out.

Avoid contact with skin and eyes.

**Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.**

### Storage Instructions:

Store out of direct sunlight and under cover.
